

# 9510 Modbus Remote Airborne Particle Counter

## 1.0 CFM (28.3 LPM)

The 9510 Modbus particle counters provide a range of particle size measurement from 0.5 to 25.0  $\mu\text{m}$  at a flow rate of 1.0 CFM (28.3 LPM). These sensors allow for efficient particle counting with specifications that exceed the ISO 21501-4 and JIS B9921 calibration standards.

These sensors have 6 user-selectable particle size channels (up to 30 channels optional) and are equipped with an integral critical orifice and flow sensor to provide a stable flow rate from an external vacuum source. Integration into a building automation or facility monitoring system is easy via isolated RS-485 Modbus communication.
